INSTRUCTIONS FOR USE

- Shake the spray vigorously for 1 minute, always hearing the balls hit inside.
- If you do not hear the balls when shaking, hit the bottom of the spray with your palm until you hear them. Stir for 1 minute then.
- Press the cap 2-3 times before applying on the final piece to clean it inside and obtain a uniform paint beam.
- Apply on clean and dry surfaces for a perfect finish.
- For fine strokes: Paint with great speed and close to the target surface.
- For thick strokes: Paint more slowly and away from the target surface.
- Invert the aerosol at the end of the work to purge the valve. This will prevent a probable future obstruction.
- Do not apply on connected equipment and use in ventilated areas.
- Use a mask with a particle filter
